CONSULTING

Comprehensive IT Solutions for Small and Medium Sized Businesses

• Software Development

Custom Microsoft® Windows® software developed using Microsoft® .NET technology and Microsoft® based Cloud Computing and Web Services. Mobile applications for Windows® Phone.

• Website Solutions

Custom website solutions and web hosting based on ASP.NET and open source Content Management System — DotNetNuke™.

• Managed Network Services

Fixed price IT helpdesk services, network monitoring and management, security patch management, remote support, anti-virus management and monthly network health reports. Hardware and software sales including wireless networking, notebooks, desktop PCs, Microsoft® Office and anti-virus software.

Datawise Consulting Pty Ltd was established in 2000 and is an Australian computer consulting, network support, software and web development company based in Hobart, Tasmania. Our mission is to provide comprehensive high quality, cost-effective IT services to meet the wide ranging Information Technology needs of today's small and medium sized businesses.

Datawise can also offer customised on site training for the software we implement and develop including Microsoft Official Curriculum (MOC) training. MOC training covers most Microsoft products including Windows® Server Administration, SQL Server Administration and Development, ASP.NET, VB.NET and C#.NET Development using Visual Studio.

Datawise became a Microsoft Certified Partner in 2002. We specialise in Microsoft® based solutions. Our areas of expertise include:

- Custom software and database design using Microsoft® Access, SQL Server, SQL Azure, VB.NET, C#.NET, and ASP.NET.
- Mobile applications for Windows® Phone.
- SQL Server consulting, database administration, design, business intelligence, data warehousing and reporting services.
- Custom website solutions developed with DotNetNuke™ and ASP.NET technology.
- Web hosting and domain management.
- Network consulting, design and support of Microsoft® Windows® based networks including Microsoft® Small Business Server.
- Fixed price IT helpdesk, PC, server and network device monitoring and management, trouble-shooting, server health monitoring and reporting, iPhone, Android and Blackberry phone configuration.
- Wireless networks and router configuration including Cisco routers and VPNs.
- Hardware and software sales.
